ALWYN WILSON

+91 9544936427 ● Kerala, India ● alwynwilson187@gmail.com ● Linkedin.com/in/alwyn-wilson

EDUCATION

Bachelor of Technology (**B.Tech**.) in ECE.   (2019 - 2023)
Christ College of Engineering, Irinjalakuda   Kerala, IN

EXPERIENCE

Trainee - Junior React Developer   Aug - Sept 2024
- Spidero Technology, UK
  - Worked on React for website designing, canva, UI components designing.
  - Designed responsive websites.

Intern - MERN full stack developer   Jan 2024
- Luminar Technolabs, Kochi
  - Worked on full-Stack technologies like React, MongoDb, Express.js, Node.js.
  - Designed and deployed responsive websites with improved user experience.

SKILLS

Programming Languages : JavaScript.

Development Framework, Libraries & CSS Frameworks : React.js, Node.js, Express.js, Bootstrap, tailwind.

Version Control & Technologies known : Git, MongoDb, figma, Canva.

PROJECTS

Project Fair App   https://project-fair-io.vercel.app
- Users can create, update, and delete projects, providing details such as project descriptions, GitHub links, and live demo URLs. This allows for a centralized platform to showcase their work.
- This application employs authentication mechanisms, ensuring that only authorized users can modify project details. This includes updating user credentials securely.
- Built with the MERN stack (MongoDB, Express, React, Node.js), Project Fair ensures a robust and scalable solution for managing the project.

DineSpot   https://github.com/alwynwilson/DineSpot-io
- Built a user-friendly restaurant finder app (React, Redux, Bootstrap) for efficient search and exploration.
- Developed a comprehensive restaurant information system including menus, hours, reviews, and location data of few hotels.
- Designed an elegant and user-friendly interface with Bootstrap, enhancing user experience.

MacbookPro - clone   https://alwynwilson.github.io/Macbook-clone.io/
- Developed a fully responsive MacBook Pro clone.
- Demonstrated strong attention to detail by meticulously replicating the sleek design of the MacBook Pro.
- Demonstrated Project highlights proficiency in front-end development, emphasizing clean code and responsiveness across devices.

ACHIEVEMENTS

- National level Hackathon finalists (Lifeathon 2021).
- Finalists of State level hackathon (HackSUS 1.5).
- Second runners up in idea pitching competition (Ideate 2019).
- Winners at intra - college Music band Competition.
